

Prakash C

Software Engineer (Full-Stack & Systems)

Ambur, Tamil Nadu | 7395864463 | prakashsekar352@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Software Engineer combining rigorous full-stack web engineering expertise with high-pressure analytical experience from the banking sector. Proven track record in designing scalable RESTful APIs, optimizing high-volume transaction processing workflows, and building robust, user-centric web applications utilizing modern JavaScript/TypeScript, Python, and cloud-native databases.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL (PostgreSQL/MySQL), HTML5, CSS3, Bash

Frameworks & Architectures: React.js, Redux, Node.js, Express.js, FastAPI, RESTful APIs, Microservices

Tools & Cloud: Docker, Git, GitHub Actions, CI/CD Pipelines, Postman, Linux, VS Code, AWS (S3/EC2)

Core Competencies: Data Structures & Algorithms, System Design, Performance Optimization, Scalability

PROFESSIONAL EXPERIENCE

Deputy Manager — IDFC First Bank (Nov 2025 – Aug 2026)

- Engineered high-volume data workflows and automated core reporting scripts, reducing manual operational processing latency significantly.
- Analyzed complex system transaction logs and database error traces to troubleshoot system bottlenecks and guarantee data integrity across secure endpoints.
- Collaborated with cross-functional technical teams to deploy secure system integrations adhering to strict financial compliance standards.

Business Development Officer — Equitas Small Finance Bank (Nov 2024 – Aug 2025)

- Managed core banking operations and customer onboarding pipelines, maintaining strict data accuracy and cross-functional verification standards.
- Streamlined transactional customer workflows to optimize user experience and operational delivery timelines.

PROJECTS

To-Do List Application

GitHub: <https://github.com/prakash7395/prakash-my-todo-list>

Personal project demonstrating full-stack web development and application workflow implementation. Source code and project details are available in the GitHub repository.

EDUCATION

Bachelor of Computer Applications (BCA) (2021 – 2024)

Islamiah College, Vaniyambadi

Higher Secondary School Education (6th – 12th Standard) (2015 – 2021)

Hindu Higher Secondary School, Ambur
